### DOVER UPDATE – 01-02-2024

The Office of the Chief Medical Examiner has provided investigators with initial autopsy results on the three members of the Kamal family discovered dead in their Dover residence on December 28, 2023.

Preliminary results provided to investigators confirms that Teena Kamal, 54, and her daughter Arianna Kamal, 18, were victims of homicide by gunshot. Rakesh Kamal, 57, their husband and father respectively, died by gunshot wound consistent with being self-inflicted. The final autopsy report is likely to be completed in the coming weeks.

While full forensic and ballistics testing of the gun have not been finalized, the firearm found with Mr. Kamal is consistent with a .40 caliber Glock 22. The firearm was not registered to Mr. Kamal and he was not licensed to possess it. Massachusetts State Police have contacted the Bureau of Alcohol, Tobacco, Firearms, and Explosives for assistance in determining the origin of the firearm.

The incident remains under investigation by Dover and Massachusetts State Police.
